To whom it may Concern

Cooperative Social Responsibility (CSR) with Eco -Tablets

The newly introduced Eco-Tablet acts as a fuel-booster and an emission reducer and both these positive results will be a win win situation to the community and to the environment as a whole.

This substance has been tested and proven under the supervision and patronage of Central Environmental Authority.

This authority strongly believes that the initiation of Corporate Social Responsibility Projects (CSR) related to environmental protection by any institution will contribute to the environment to achieve the primary objectives and goals set out by the statute and relevant regulatory provisions to enhance and protect the quality of environment.

Considering the positive environmental impacts, application of Eco – Tablets to any vehicle fleet is recommended by this authority in relevant CSR projects.
